The beneficiary shall manage their grant in line with the Erasmus quality standards and with the following goals, listed in order of priority:

- using the awarded grant fully,
- working towards objectives of the Erasmus Plan linked to the above-mentioned accreditation code,
- delivering indicative targets defined in section 'Activities' of this Annex.

The table of indicative targets in section 'Activities' shows a flexibility margin for each target. If the project grant has been fully used, reaching any value within the flexibility margin will be considered as having fully reached the target.

Overall, the beneficiary must prioritise targets for activities and categories of participants that have been marked with priority status at budget allocation stage.

Changes beyond the standard flexibility margin are permitted and do not require an amendment to the grant agreement. The beneficiary will explain such larger changes as part of the final report. The changes and provided explanations will be evaluated as part of the final report assessment. Such changes may reflect positively on the project's overall score, depending on the quality of the provided explanation (particularly with regard to the beneficiary's Erasmus Plan objectives).
